Girls, Less Valuable.
Russian Schools.
The Church Again.
Guarantee Employ't.

—By Arthur Brisshane—
(Copyright 1931)

In India, girl babies are comparatively few. Some northern Indian races destroy new-born girls, less valuable as workers than boys.

The Maharajah of Kathiawar offers an acre of land for every father of a healthy girl, and distributes pamphlets and posters warning against female infanticide.

The British, who know what the Mahrajah is doing, are trying to do on a smaller scale, diminishing Indian plagues and famine. The increase in India by one billion.

BIRDSHAW — It is 4 millions. Some think this doesn't count, for the Hindus themselves. But the British can't let their leadership fail to translate, in China.

At present, according to Mr. Duranty, correspondent of the New York Times, there are 75 million Russian children in school as compared with 75 million in the U.S., the highest number in the world. The internal people who believe in the public schools are few.

Seventy different languages are used in Russian schools, which compare with 200 in the U.S. Russia was in United States, negotiating peace with the Czar with Japan, Korea, Thailand, Russia, etc.

"Do not be surprised that a dinner is not a perfect government in Russia," he wrote. "But he was surprised that we have

201 ACCEPT NOMINATION IN QUEBEC

Provincial Election Enters Final Stage With Exciting Incidents

Canadian Press

MONTREAL, Que., Aug. 18.—With the two-week general election just one week away, 201 candidates seeking the confidence of the electors in 99 constituencies were nominated yesterday morning, quiet day, but in many rural centres the political excitement which has characterized the campaign since the start of the campaign broke into open warfare.

Nineteen Conservatives, 88 Liberals and 23 other candidates were nominated yesterday in the 15 seats on the Island of Montreal, while 100 candidates were nominated in every riding. Three independent Conservatives, 12 Liberal candidates, one independent, one independent-Liberals,

Montreal Canadian Press

ST. PASCAL, Que., Aug. 18.—Five revolver shots rang out during the course of a stormy political meeting held Monday afternoon.

As the crowd pursued its way home, three men were discovered lying on the floor, seriously wounded.

The shots were fired by a member of the provincial police.

Det. Louie, the wounded man at St. Pascal, the wounded men were undergoing operations.

Thomas Michael, 30, of St. Pascal, was shot in the leg, a bullet in his leg, with a fracture, as very grave, on account of his bone age.

Joseph Lorraine of St. Alphonse, 20, was also severely wounded.

Both men and a woman, Mrs. Focaire, were also wounded in the leg.

Other persons in the crowd

were slightly injured.

HOCKEY GAME STOPPED

At three o'clock yesterday afternoon, Paul Gagnon, late Liberal member in the House of Commons and his Conservative colleague, Mr. J. C. Ross, tried to address a "contradictory" meeting of the two parties.

When Mr. Levesque

attempted to speak, he was hit by a bullet.

Influx of U.S. Citizens, Looking for Farm Work, Adds to Unemployment

MANITOBA IS NOW FACING NEW PROBLEM

Hundreds Have Crossed International Boundary Illegally

CANADIAN PRESS

WINNIPEG, Man., Aug. 18.—Influx of United States citizens looking for farm work during the harvest season has brought a new problem to the migrant figures of Manitoba, according to Hon. W. R. Clubb, director of unemployment relief. Mr. Clubb has informed the Canadian Government's Dominion Minister of Labor, that hundreds have crossed the international boundary illegally, and the dominion minister in his reply has urged the Canadian Government to combat the situation by enacting laws.

In a letter to the Minister, it is reported between 150 and 200 United States citizens have been seen on the streets. In his reply Senator Robert M. Coates, of Ontario, said he had added that "it seems advisable that you should receive the co-operation of your provincial government in illegal immigration and that the Canadian Government should do likewise."

Police Investigate Mystery Shooting

CANADIAN PRESS

VANCOUVER, B.C., Aug. 18.—Mysterious circumstances surrounding the fatal shooting of a son of a son of Vancouver, and formerly a resident of Calgary, Alta., at the hands of a man who has since fled, are being investigated. Death resulted from a bullet wound just below the heart.

Roy E. Caverley of North Vancouver, who was shot, is reported to have been accompanied to the Garibaldi home by provincial police at Williams

Bay.

MORE ABOUT WOUND THREE

CONTINUED FROM PAGE ONE

had started the fight. In the crowded hall nearly all the shots fired were human marks. Panic-stricken men and women ran for safety, leaving many to fall.

Two soldiers present gave first aid to the wounded men. An investigation of Michaud, Lafraire, and Arcel revealed that the soldiers and they were rushed to hospital.

SEVERAL FIGHTS REPORTED

CANADIAN PRESS

Montreal, Aug. 18.—Several incidents of fighting between soldiers and sailors in the South Shore district. The election has already been held in the city, and the election of Michael J. O'Brien, Liberal, to the seat. Hard words led to blows and the opponents of the two candidates, who were split into two Conservative and Liberal conclaves, then engaged in mutual brawls.

OLD FASHIONED BATTLE IS STAGED AT STE. ROSE

CANADIAN PRESS

STE. ROSE, Que., Aug. 18.—A real old-fashioned electoral battle was fought in the small town in the St. Lawrence River valley. Joseph Renaud, Conservative, and Joseph Léonard, Liberal, were nominated to go to the polls in the seat. Hard words led to blows and the opponents of the two candidates, who were split into two Conservative and Liberal conclaves, then engaged in mutual brawls.

FIGHTERS IN FORM AT CHATEAU RICHER

CANADIAN PRESS

CHATEAU RICHER, Que., Aug. 18.—Fist fights enveloped nominations here Monday, when Hon. L. A. Taschereau, the Quebec premier, and Louis Francœur, Conservative, and Jean-Pierre Gagnon, Liberal, all qualified as candidates for the county of Montmorency.

Two opposing groups of belligerents joined battle, a fourth emerged from the fray. The difference of a bird of a cow and another at the arrival of the provincial police seemed to settle the question more than anything else resulted from this fierce political skirmish.

Following the nominations, Mr. Taschereau spoke to a crowd in the courtyard of the Chateau Richer. Mr. Taschereau spoke briefly from a very short speech, and then adjourned to the main room. Fighting took place on the main street, a no-man's-land between the two assemblies. Some 200 spectators sat in their cars and snapped pictures of the scene.

Premier Taschereau condemned the fighters, who were strongly disapproved of the "secondists" who were making trouble.

Evidence of Juggling Road Gang Paychecks Bared

Tuesday

One independent-Labor and one Liberal-Labor man round out this number. In eight of the 15 constituencies there are more than two candidates, and there are also six independent-Liberals, four independent-Conservatives and three independent-Progressives. There are three men in the field.

In the case of these "contradictory" meetings were held in many cases on a common platform to put their political beliefs before their

PREMIER RECKLED

Premier Taschereau's county seat at Chateau Richer, Montmorency, was a scene of hectic activity yesterday. Fire flights between strong parisons broke out in the early morning hours and a little gore resulted, but no serious injuries were reported. One man was slightly injured when a protracted bullet with rifle flying by him again the damage was

No scalations were recorded.

CONSERVATIVE LEADER

MONTRÉAL, Que., Aug. 18.—Major Camillien Houde Monday night carried off the victory in the constituency of St. James, Montreal. The Conservative leader is running here for the second time, having been elected in the last legislature. He is also running in his own constituency of St. James.

Explaining his reasons for running against M. Laurier, the Conservative leader said he had been asked to run to the rescue of the people of St. James, the Westmount. His resolution to benefit the working class of the constituency board should be a warning to other electors.

AGASSIZ, Que.—The Agassiz Farmer-Treasurer, with nothing doing to relieve the unemployment crisis. Despite the fact that he had been called to work on Sunday, and that company would not pay him, he did not let his power to assist the laboring man. If he could not find work he would return to the Westmount. His resolution to benefit the working class of the constituency board should be a warning to other electors.

THREE SALES IN GROCERIES

Shops should be taken to reduce the rate of infant mortality in the city of Montreal, the Agassiz Farmer-Treasurer said.

Another item in the Conservative platform is the proposal of M. H. Parise, K.C., who is heading the committee of inquiry into the employment conditions of the working class.

"If the grocery store owner can loan me \$100, I will be enabled to make extra money in good times by selling him my car," he said. "I can buy him in any case—win or lose."

MORE ABOUT MISSING WIFE

CONTINUED FROM PAGE ONE

shortly before 10:30 this morning. So far no trace has been found.

Search at her home on 102A Avenue in the middle of the morning turned up the missing woman.

On the window of the house was a simple reading: "My love is gone." 2538; High to bridge at Dawson.

A second sheet torn and ragged found the floor near the same window. "I can't live without him."

PATHETIC UNISON NOTE

CONTINUED FROM PAGE ONE

The third note, written in clear, sharp hand on a clean sheet of paper, read:

"My burden is too heavy. Tell him I am dead. Tell my mother I am dead. My sin was nothing compared to his. Tell my people to bury me in the ground and give me a quiet, peaceful grave."

Mr. Parise made no statement to police either about his wife's Sunday disappearance.

The missing woman is said to be 22 years of age. She stands about 5 feet 4 inches and weighs about 110 pounds. She is said to be deaf and dumb, and was deaf in one ear. She had a dark brown hair and was last seen in a dark brown suit at the time of her disappearance.

GET THE PHOTOGRAPHS

In these times of economic depression it is refreshing to hear the message brought from the Great Bear Lake area. Mining men of the highest rank have no doubt that the time will come that even with the small amount of development work which has been possible in the past year the development of which means so much to Edmonton, the following fields prove to be the four major mineral fields of the world. Some of them go even further and state that it will surpass any other known mineral area on the face of the globe.

At the present time the problem of transportation is holding up development. It is possible with present facilities to get the heavy machinery necessary to prove up this highly mineralized belt down the Mackenzie River and the first part of the Bear River. The Bear river rapids are proving a stumbling block. Some action is necessary to either build a fifteen mile tractor road past the rapids or to blast a way through them and then allow for the blasting of that point. Either the tractor route or the blasting of a way through the rapids will make it possible for the mining men who have pinned their faith to this area to prove that a probable pay tract is the way of north and south lines can be built up for Canada's east and west railways.

But before anything else can be done aerial photography of the area is necessary. This photographic unit, but for their lack of the necessary photographs, but their man's work in the north is closing down and no instructions have been issued to those in charge of the planes to carry on this work. It would be well to take this situation in view and enable the mining men to interest him in the Great Bear Lake region to make their decision, and it will enable the government to make an early start next season on the work necessary to facilitate in getting up these areas.

This is Northern Alberta's opportunity. With the development of the Great Bear Lake mineral belt the problems of marketing the products of the Peace River country will be a far easier task.

It will be no difficult task to extend the present railway lines in the Peace area to Great Slave Lake if the Great Bear Lake area proves to be the rich mineral field reported. In this connection following that, the major transportation problem that of building a road into the Great Bear Lake area, will solve itself, as by that time the tonnage to make such a road a paying proposition will be available and demand Meantime the development will take care of the bulk of Peace River products.

The opportunities existing before Alberta and the great Canadian competitors authorities declare that the Northern Ontario fields pale into insignificance beside the possibilities of the Great Bear Lake area, and that even as Toronto and Ontario benefited by the development of Northern Ontario, Edmonton and Alberta will benefit by the Great Bear Lake development.

If that is so, steps should be taken by the provincial government and the chief of the commission, the oil council and other public bodies to see to it that the necessary instructions are forwarded from Ottawa to the aerial photography made with the least delay. It would appear to be a fit time for the authority to make representations to the federal government to have this work done.

CANADIAN MINES LOSING OUT

Production of coal in Canada during a recent month fell 27.7 per cent below the five year average for the month. Imports of coal last month fell off 18.6 per cent from the five year average. While both production and importation showed heavy declines, the drop in production was 50 per cent greater than the drop in importation.

A year ago Canada installed a Government pledged above all things to secure the home market to Canadian industries. There were few industries in Canada which did not suffer. Many people thought that of mining and delivering coal. The figures cited show that this industry, instead of gaining on its foreign competitors

in the home market, is losing ground to

Nobdy with sense will dispute that the problem of making Canada self-dependent in the matter of fuel is a large-sized problem of many angles. And the government admits that all that it has done toward finding a solution. But apparently this has not yet been found. That the forty-cents-per-ton duty on United States anthracite will provide a partial solution is to be hoped, but not too confidently expected.

ANOTHER REMINDER

The Russian society for the abolition of God proposes that the wearing of wedding rings shall be forbidden in Russia. As real marriage has been already abolished there is replaced by a system of communal association that is terrible at pleasure, the sight of the ring which symbolizes something more than a mating after the manner of animals is perhaps irksome to the abolitionists.

The wedding ring will not banish God, even in Russia. But the announcement of the proposal in the official Soviet organ Izvestia should remind the rest of the world what kind of a society the Communists are. They are going to protect themselves should the Red masters succeed in welding Russia into one gigantic machine for war on the economic and geographic fronts.

Four Years Ago

From the file of the Edmonton Bulletin

Two main will arrive on Monday, one by stage and the other by train—the first.

Col. Thompson and Miss Thompson arrived from England on Thursday's train.

H. D. Lamont, C.R.E. engineer, arrived on Thursday.

Mrs. Firth arrived from Calgary.

The carpenter won on the railway station is coming to town.

D. C. Robertson has brought in a new light bus for use between the railway station and town.

Norris and Cary will make a trial shipment of bacon to Calgary next week.

P. D. Campbell and Co. have purchased the butchering business of McCleary and Dibson.

B. Parish, flour and feed merchant of Calgary, will open a business shortly on the South Side.

Mr. H. C. B. Firth, merchant of Red Deer, arrived on Monday.

The interior department has issued a regulation requiring all persons who are entitled to second-hand clothing to buy a preceptum as soon as possible of purchasing it.

R. J. Hutchings of Calgary, brother of Arthur Hutchings of Ponoka, visited Edmonton this week.

THIRTY YEARS AGO

A tennis court is being constructed back of the Young Court Institute.

Mr. and Mrs. F. J. Hartman from Europe last night.

P. McCarthy, P.C.G. Calgary, came on Wednesday's train.

Joseph Hart, a well known early day resident of Edmonton, arrived from the north on Tuesday.

A camp of the Canadian Order of Woodmen is about to be instituted in Edmonton.

E. Brusen arrived on Tuesday from Montreal.

It is reported that C.P.R. funds are being patented at the rate of 100,000 a day.

Mrs. Trotter, wife of ex-Corporal Trotter of the Mounted Police, arrived from Chippewyan on Tuesday.

TWENTY YEARS AGO

The Oliver committee rooms are located in the Exchange Mart building, on McDougall Avenue.

J. M. Douglas was nominated by the Liberals of Strathcona as their candidate for the December house election.

Construction of the new hydroelectric power plant is all completed.

The legislative chamber will be ready to accommodate the members at the coming session.

The provincial fair has returned after spending three months in Europe.

The Interprovincial fair opened at Edmonton yesterday.

TEN YEARS AGO

London—British soldiers are enlisting in numbers with the Spanish to fight the Moors.

This is the first, and probably the last, year of the city service tax. The tax is proving cumbersome in operation, is hard to collect, and will be a waste of the aerial photographs made with the least delay.

The Interprovincial fair opened at Edmonton yesterday.

Edmontonians are enlisting in numbers with the Spanish to fight the Moors.

This is the first, and probably the last, year of the city service tax. The tax is proving cumbersome in operation, is hard to collect, and will be a waste of the aerial photographs made with the least delay.

WHEAT TRADING CONTINUES ON DULL MARKET

Canadian Press
WINNIPEG, Man., Aug. 16.—In dull and market was devoid of foreign interest; wheat prices sagged fractionally to close at 74¢ to 74½ cents per bushel.

October closed at 85¢, down ½¢. Dec. at 56¢ was down 1¢.

Some export business was reported through New York but no operational news was available. Foreign demand and trade generally was light and of a local character.

One wheat and coarse grain trading was small with prices generally following the trend of wheat.

JUST BECAUSE THIS GIRL CLAIMS SHE'S MARRIED, BOY, THAT DON'T MEAN SHE'S SAWED OUT, IF THERE'S PICKIN' HERE FOR YOU, THERE'S PICKIN' FOR ME - YOU'RE NOT IN THIS JUST FOR YOUR HEALTH!

Little Stories for Bedtime

BUSTER BEAR FOLLOWS BUZZ BEE

Buster Bear couldn't get out of his bed. He lay there, thinking about the dreams of all the honey he could eat. No, sir, he couldn't. The more he thought about it, the more he wanted honey. Whenever he didn't have any honey, he was always in a bad mood. A good part of the time, for the only red berries Buster had is to fill his stomach when he gets hungry. He had wondered about looking for Busy Bee. He had seen her many times when she was in flowers. There were not many flowers in the Green Forest, for most flowers bloom in the Spring. It was Busy Bee! Right away Buster Bear got up and followed her. He fixed his eyes on Busy Bee and followed her. She ran from flower to flower. Presently he saw her stop and appear over the tree tops. This made him very angry. He ran after her and the two of them fell down the hill. He gave a little sigh of contentment. He had found out what he wanted to know. He lay back in his bed, which he had so long waited. He lay there, thinking about Busy Bee's steppings. He knew because when Busy Bee had a load of blossoms on her back, she always steps in a straight line to the right. She goes in the shortest way to a great point in a straight line, and she is far too interested in her blossoms to notice anything else.

"Perhaps that will teach you to leave honest people alone," hummed Bomber Bee.

the shade, and whenever Buster Bear saw any of these he promptly looked them over. He was very disappointed. For several days he was disappointed. He found plenty of other people of the shade, but none who had blossoms on their backs. Surely this time he would find Busy Bee. But instead of like he found her, he found a small bee who made a great noise and appeared to be in a hurry. "I'm in a hurry," said the small bee. "I must get to the Green Forest. Busy Bee would stand being knocked down that way. He was up in a twinkling, and when Bomber Bee came along, he said, "Bomber Bee, when do you think Busy Bee will come?"

Buster was so disgruntled before he thought he lifted one paw and knocked Bomber Bee down. In just about the time it took to say "Ouch!" he wished he had let Bomber Bee go. He was sorry he had let Bomber Bee go. He wished his cousin Busy Bee, carry a little more weight when she went to see him. Surety this time he would find Busy Bee. But instead of like he found her, he found a small bee who made a great noise and appeared to be in a hurry. "I'm in a hurry," said the small bee. "I must get to the Green Forest. Busy Bee would stand being knocked down that way. He was up in a twinkling, and when Bomber Bee came along,

"Perhaps that will teach you to leave honest people alone," hummed Bomber Bee.

He lay back in his bed, which he had so long waited.

He lay there, thinking about Busy Bee.
